

Building a High-Performance Growth Engine

How Next Rentals Outperformed Industry Benchmarks at Every Stage of the Customer Journey

Campaign period: Jan 2025 – June 2025

The Results: A 6-Month Campaign That Doubled Growth and Acquisition

100%

Year-over-Year Growth
in Traffic & Acquisition

2,000+

High-Intent Active
Users Captured

120+

Qualified B2B & B2C
Leads Generated

This campaign's success was not just in driving traffic, but in **attracting and converting better quality traffic than the industry standard**. We consistently performed 2x to 3x above benchmarks.

Our Strategy: The Performance Flywheel

We built a self-reinforcing system. By attracting better-qualified users (Attention), we fostered deeper on-site exploration (Engagement), which naturally led to more efficient lead generation (Conversion). Each stage amplifies the next.

Winning the First Click: Hyper-Relevant Ads Achieved 3x the Industry Norm

15.5%

Top Ad Click-Through Rate (CTR)

This exceptional performance on our 'Headline' ads proves the ad copy and targeting resonated perfectly with high-intent users searching for specific event furniture solutions.

Our Ads Consistently Captured More Attention than the Competition

Verdict: Above Average.

While an average B2B ad secures a CTR of around 4.8%, our average performance was significantly higher. This shows we didn't just have one lucky ad; the entire campaign was built on a foundation of relevance.

Earning the Engagement: Users Didn't Just Visit—They Stayed and Explored

80

Seconds - Average Time on Page

An 80-second average visit indicates users were carefully browsing the product catalogue, not bouncing immediately. This is the first sign of high-quality, high-intent traffic.

We Held User Attention Nearly 50% Longer Than the Global Average

Average Time on Page

Bounce Rate

49.55%

Next Rentals

60% - 70%

Industry Norm
(B2B Paid Traffic)

Healthy Retention: A bounce rate below 50% for paid traffic is excellent.

User Behavior Confirmed a 'Shopping' Mindset, Not Window Shopping

The 'Catalogue' Effect

The Catalogue page was the second most visited page on the entire site (1,710 views).

Insight: Users bypassed generic 'About Us' content and went straight to the products, demonstrating immediate commercial intent.

Mobile-First Engagement

The majority of traffic came from mobile devices.

Insight: This validated our strategic focus on mobile-optimized calls-to-action like 'Click-to-Call' and integrated 'WhatsApp' chat buttons.

Driving the Action: High-Intent Traffic Converted into Qualified Leads

6.6%

Conversion Rate on 'Formal Quote' Forms

A 6.6% conversion rate from cold paid traffic is exceptionally strong. It proves the users funneled through the campaign had an immediate and serious need for a quote.

Our Conversion Funnel Outperformed at Every Step

Ad Conversion Rate

+28% More Efficient

Form Conversion Rate

High-Intent Signal

The entire system was optimized to turn clicks into two types of leads: immediate inquiries via 'Instant Chat' and formal requests via 'Quote Forms.'

Achieving Superior Results at a Competitive Market Rate

Average Cost Per Click (CPC)

ZAR 12.75 $\approx$ **ZAR 12.42**

Next Rentals CPC

SA Benchmark ("Consumer Services")

We paid the standard market rate for a click, but because our engagement and conversion rates were 2-3x higher, the return on every Rand spent was significantly greater.

This is highly efficient compared to global furniture CPCs, which often exceed ZAR 36.00 (\$2.00).

A Sustainable and Profitable Model for Lead Acquisition

Cost Per Lead (CPA)

~ZAR 218 – R360

Acquiring a qualified lead—such as an Event Planner or a Corporate Client—for an average of R250 is a highly sustainable investment, especially given the high lifetime value (LTV) of recurring event rental contracts.

Paid Search Was the Engine, Building Brand Recall in the Process

Paid Search

The primary driver of new business and lead generation.

Direct Traffic

A strong 24% share indicates brand recall is growing. Users who saw an ad or received a quote returned directly to the site, demonstrating trust and memorability.

More Than a Campaign: A High-Efficiency Customer Capture System

Next Rentals didn't just buy traffic; it invested in a system that attracted higher-quality prospects and converted them more efficiently than the competition. By decisively winning at click-through rate, on-site engagement, and conversion, the brand successfully positioned itself as the go-to provider for event furniture in Gauteng.
